Subject: NCAT team to look at LD diesel standards and

Byron,
I talked with Dan, John, and Andy about NCAT's helping with compliance activities, and in particular their looking at how well our current regulations cover LD diesel emissions profiles.

As I mentioned, this was being discussed at a casual pace in NCAT, but they will now step-up the effort and also look at the literature/recommendations from many who are looking at LD diesels.

You mentioned you have a fair amount of material you could send them – please send it to Dan, John, Andy, and Paul.

Thanks, David
